

TWIN YOUR LIBRARY

The Lela Initiative supports schools in rural Uganda to improve their reading culture by revamping their libraries.

By twinning your school library, you are giving children in Uganda the opportunity to read a wide range of books in a welcoming environment, which otherwise wouldn't be available to them.

Your library can be twinned for suggested donation of £120 (small school) / £350 (large school). When you twin, we will send you information about the current school in Uganda that we are working with. Once the refurbishment is complete, we will send you a certificate and photos of your twin library.
